I think the Govt. should have better things to do with the taxpayers dollars than to hound corporations just because they have the know how to make a success of their venture. So please do something constructive instead of distructive in the spending of our money.If you want to go after someone go after the people that provide the American dream only to those who do not have the gumtion to do anything on their own AKA illegals immigrants from the so called underpriveliged countrys any ambition they have when they get here is soon replaced with every handout the U.S. Govt. can muster small business loans food stamps welfare & no limit to the amount of children they can have which is no burden to them because you provide evrything neccessary Xtras for every child born. I was talking to the Sheriff Dept. here about the kids born to most of these families and they call it their job SECURITY that s some tribute.
